Tips for You!

Dear DISCOVERY GARDENS families

Influenza (Flu) and COVID-19 are both contagious respiratory illnesses, but they are caused by different viruses. COVID-19 is caused by infection with a new coronavirus (called SARS-CoV-2) and flu is caused by infection with [influenza viruses](#), and testing may be needed to help confirm a diagnosis. There are some key differences between flu and COVID-19. COVID-19 seems to spread more easily than flu and causes more serious illnesses in some people. It can also take longer before people show symptoms and people can be contagious for longer. Another important difference is there is a vaccine to protect against flu. There is currently no vaccine to prevent COVID-19. The best way to prevent infection is to avoid being exposed to

Thanksgiving is a time for gratitude, We here at Discovery Gardens are thankful for wonderful parents and staff like you this thanksgiving. Our team has really enjoyed the time we have spent with all of you this Very unpredictable, trying, and crazy year. So, we wanted to share our heartfelt appreciation for you, we would like for you to take a few minutes and tell us what you and your family are thankful for.

We are sending home a leaf and chain links for you to write on and tell Us you are thankful for this year, once you have done so return the links to your child's teacher and you may place your leaf on our gratitude tree that will be found in the offices of Discovery Gardens. We look forward to reading what our families are thankful for.
